

## Twin Cities ANSYS User Meeting

# Design Modeler vs. Spaceclaim: Choosing Your ANSYS Geometry Tool

**Wednesday, November 18<sup>th</sup>**

**3:00-5:00 PM**

Including a head-to-head competition, the strengths of both tools will be explored supported by community discussion ranging across multiple applications and industries.

*Hosted by Epsilon FEA*

Join your fellow ANSYS users in the Twin Cities area for an ANSYS user meeting including technical presentation with handouts.

After the presentation, this informal setting encourages users to exchange experiences with ANSYS features, products, and methods new and old

Please [RSVP](#) to reserve a seat!

Meet at 3PM on Wednesday, November 18<sup>th</sup> at Bryant-Lake Bowl and Theater.

Food and beverage provided! This event is free—parking is available behind the building (lot), as well as street parking on Aldrich, Bryant, and Colfax Avenues.

Hosted by Epsilon FEA, expect introduction and presentation to last about an hour, with informal discussions to occur afterwards depending on folks' traffic needs and preferences.

Bryant-Lake Bowl and Theater  
810 W Lake St  
Minneapolis, MN 55408
