

Twin Cities ANSYS User Meeting

Topological Optimization ANSYS Toolset

Wednesday, February 6th

3:00-5:00 PM

**Explore the emerging topological optimization capabilities
including application with cast and machined parts.**

Join your fellow ANSYS users in the Twin Cities area for an ANSYS user meeting including technical presentation with handouts.

After the presentation, this informal setting encourages users to exchange experiences with ANSYS features, products, and methods new and old

Meet at 3PM on Wednesday, February 6th at Bryant-Lake Bowl and Theater.

Food and beverage provided! This event is free—parking is available behind the building (lot), as well as street parking on Aldrich, Bryant, and Colfax Avenues.

Hosted by Epsilon FEA the hour long presentation is followed with informal discussions and networking until six o'clock.

Please RSVP to reserve a seat:
